Buenos Aires, Argentina

PROFESSIONAL SUMMARY

Senior DevOps Engineer with 5+ years of experience in digital transformation and enterprise infrastructure modernization. Specialized in designing and implementing cloud architectures with IaC (Terraform, CloudFormation), migrating monolithic systems to microservices, and automating CI/CD pipelines across multi-cloud environments. Proven track record managing 150+ cloud accounts at enterprise scale, leading cost optimization initiatives with a FinOps approach, and mentoring technical teams. Currently pursuing a degree in AI Engineering, integrating emerging technologies into DevOps solutions.

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer — 2025 - Present
Dualboot Partners
CONTRACTOR · REMOTE

- Design and implementation of cloud infrastructure using IaC (Terraform) across AWS and Azure environments for international clients
- Creation and maintenance of CI/CD pipelines for application and infrastructure deployments with GitHub Actions and GitLab CI/CD
- Automation and containerization with Docker, enforcing best practices in Git workflows, GitOps, and deployment standards
- Direct collaboration with development teams on multi-cloud setups and multi-environment configurations

DevOps Engineer — Feb 2025 - Present
Global Processing

- Led migration of 7+ critical services from monolithic VMware to microservices architecture with Docker and ECS Fargate
- Established CI/CD standards with GitLab, eliminating direct node access and improving operational security by 100%
- Delivered automated infrastructure with CloudFormation for enterprise clients, ensuring scalability and security
- Planning Kubernetes implementation roadmap for business-critical APIs

Cloud Engineer — Jun 2023 - Feb 2025
Cencosud S.A.

- Managed 150+ cloud accounts (80 AWS, 30 OCI, 20 Azure, 20 GCP) implementing corporate governance with SCPs and policies
- Achieved 70% storage cost reduction on AWS through serverless architecture (Step Functions, Lambda, S3 Glacier)
- Led technical cell designing Terraform architectures with presentations to C-Level stakeholders
- Mentored 8+ professionals in IaC, Serverless, and CI/CD through weekly structured sessions
- Automated cross-account backup policies reducing operational time by 60%

Cloud SysOps Analyst — Sep 2022 - Jun 2023
Global Processing

- Automated critical processes with CI/CD (GitLab, Azure DevOps) significantly reducing deployment time
- Developed Python scripts eliminating 15+ hours per week of manual tasks
- Managed AWS services (EC2, Lambda, CloudFormation, Route53, S3) for payment processing systems

DevOps Engineer — May 2020 - Aug 2022
Detokeapp

- Managed multi-cloud infrastructure (AWS/GCP) with 99.9% uptime for e-commerce platform
- Implemented CI/CD pipelines reducing release time from 1 day to 2 hours
- Executed critical data migrations between cloud environments with zero downtime

Freelance Web Developer — Jul 2019 - Sep 2022
Independent

- Full-stack web development with JavaScript, Python, and AWS cloud services

TECHNICAL SKILLS

Cloud Platforms
AWS, Azure, Google Cloud Platform, Oracle Cloud Infrastructure

Infrastructure as Code
Terraform, CloudFormation, Ansible, Packer

Containers & Orchestration
Docker, Kubernetes, ECS/Fargate, Docker Swarm, Helm

CI/CD & Automation
GitLab CI/CD, GitHub Actions, Azure DevOps, GitOps

Programming Languages
Python, Go, Java, JavaScript, SQL, Bash

Monitoring & Observability
CloudWatch, Datadog, Prometheus, Grafana, New Relic

Virtualization & OS
VMware vSphere/ESXi, Linux (Ubuntu, CentOS, AL2), Windows Server

Methodologies & Tools
Agile/Scrum, Jira, Confluence, FinOps, Git

PROFESSIONAL SKILLS

Technical Communication · Mentoring & Technical Leadership · Proactive Problem Solving · Cross-functional Collaboration · Continuous Learning · Teamwork · Time Management · Stakeholder Management

CERTIFICATIONS

Oracle Certified Foundations Associate · Oracle
AWS Technical Essentials · AWS
AWS Serverless Badge · AWS
IT Service Management · ITSM
LFS158 Introduction to Kubernetes · Linux Foundation
GitHub Foundations · GitHub
Microsoft Copilot Engineer · Microsoft
Architecture with Terraform · Udemy

EDUCATION

Engineering in Artificial Intelligence
Universidad de Palermo · 2025 - In progress

Java & SQL Developer
ITMaster Academy · 2019-2020

LANGUAGES

Spanish: Native **English:** Advanced (B2) **Portuguese:** Basic
